# ISO/IEC 27001

## Transition

**Deadline: October 31, 2025**

### Key Date to Remember:

October 31, 2025 – All ISO/IEC 27001:2013 certificates expire

PJR is here to support your transition at every stage. Contact your scheduler today to arrange your transition audit and ensure your certification remains valid without interruption.

Having difficulty scheduling your ISO/IEC 27001 transition audit?

If your current certification body is unable to schedule your ISO/IEC 27001:2022 transition audit in time, PJR is here to assist. We welcome new clients wishing to transfer their certification and will make every effort to arrange your audit ahead of the 31 October 2025 deadline.

Don't risk a lapse in your certification! Contact PJR today to discuss transferring and securing your transition audit.

## R2V3 FACILITY MOVES – OUR LATEST WHITE PAPER

Facility moves refer to the relocation of certified processes and systems from one premises to another. This should not be confused with the addition of new facilities or sites to an existing certificate. In accordance with the current edition of the Code of Practices (COP) for R2v3-certified organisations, facility moves necessitate an audit of the new premises prior to the issuance of a revised certificate.

Discover our latest white paper to gain insight into the R2v3 facility move requirements as set out in the current Code of Practices.

## We'd Love Your Feedback!

At PJR, we continually strive to deliver the highest standard of service. If you have had a positive experience with us, we would be most grateful if you could take a moment to share your thoughts on Google. Your review not only helps us to improve, but also enables other organisations to appreciate the value of certification with PJR.

for being a valued client!

# TOM WHEAT VISITS US HEADQUARTERS

This week, we at PJR UK were delighted to see our Site Manager, Tom Wheat, travel to the United States to visit PJR's headquarters. His time there was dedicated to important strategic discussions on expanding the UK market and strengthening our presence across Europe.

Tom also worked closely with the leadership team on auditor onboarding and training initiatives, helping to align processes and maintain the high standards that define PJR worldwide. His visit represents PJR UK's continued commitment to supporting our clients and auditors with excellence, while reinforcing our role in PJR's global growth.

## Free Self-Paced Training Opportunities

Enhance your understanding of key ISO standards with PJR's complimentary clause-by-clause training courses – delivered virtually for your convenience. These sessions provide detailed insight to help you interpret requirements, prepare effectively for audits, and strengthen your management systems.

# CLIENT SPOTLIGHT: FLORIDA CIRCUIT

**FLORIDA CIRCUIT**  
RAPID KITTING

**F**or more than 25 years, Florida Circuit, LLC has been a trusted partner in the electronic components industry. Based in Sunrise, Florida, the company has built its reputation on reliability, quality, and a steadfast commitment to counterfeit prevention.

### A Full-Service Resource

Founded in 2000, Florida Circuit operates as a full-service electronic component resource company, offering kitting solutions and complete outsourced procurement services. With extensive supplier relationships, deep industry knowledge, and advanced tools, Florida Circuit supports complex production demands while identifying opportunities for cost savings and efficiency.

With 2,880 customers served, 3,650 suppliers, over 300,000 line items shipped, and more than 288 million units delivered—all with zero counterfeit parts shipped—Florida Circuit has set a standard for responsible and reliable procurement.

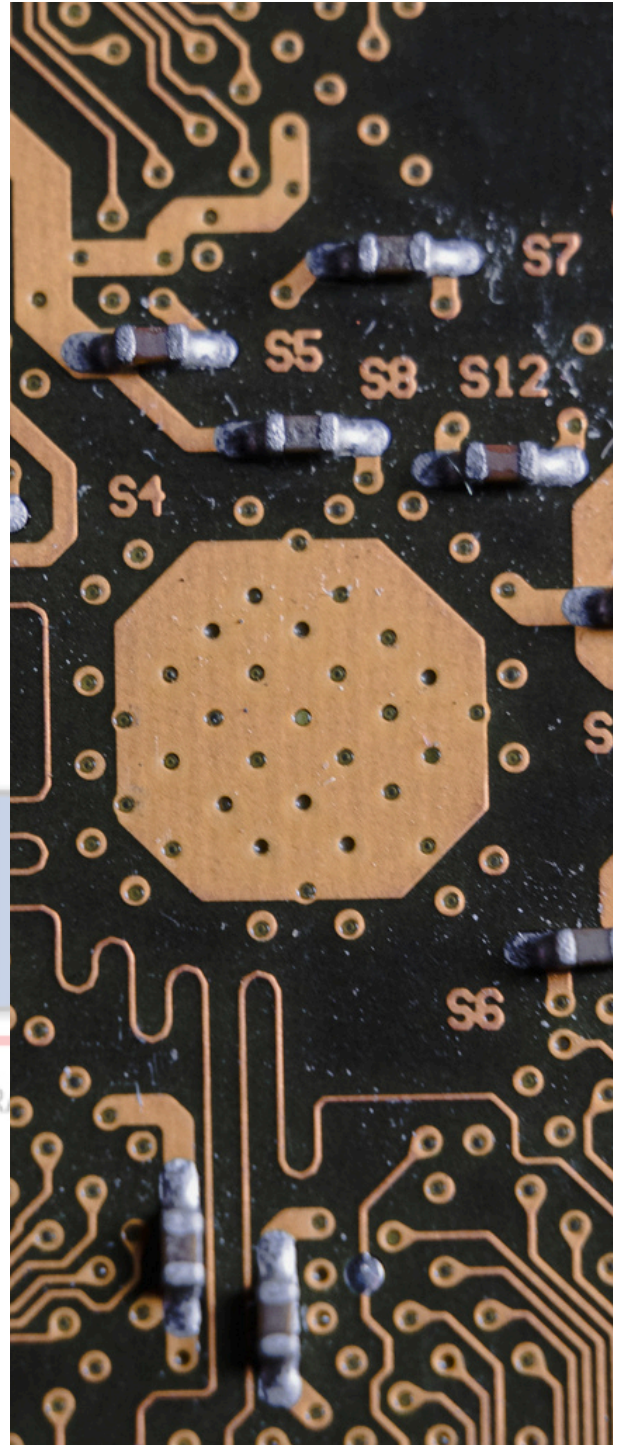

### Commitment to Quality and Certification

As an ISO 9001:2015 certified company, Florida Circuit has instilled strict quality disciplines across every facet of its operations. Certification has been a key driver in:

- Improving customer satisfaction and loyalty
- Boosting employee confidence and competency
- Enhancing product and service quality
- Increasing efficiency and reducing errors
- Minimizing risks across the supply chain

### A Longstanding Partnership with PJR

Florida Circuit has partnered with PJR since 2003. Over more than two decades, this relationship has supported the company's continued growth and reinforced its dedication to quality. "Our experience with PJR has been excellent," they shared.

***"Certification has given Florida Circuit the tools and resources to uphold strict quality disciplines across all facets of our operation,"*** Tad Deer, General Manager of Florida Circuit, noted.

# What Sets Florida Circuit Apart

Florida Circuit's zero-counterfeit track record is one of its proudest achievements. The company has maintained this perfect record through:

- A rigorous Counterfeit Mitigation Policy, ensuring components are sourced only from trusted suppliers with proven records.
- In-House Inspection procedures aligned with the IDEA-STD-1010 standard, as referenced in SAE AS5553 and widely adopted by organizations such as NASA.

•Operating as an ESD-safe facility certified to ANSI/ESD S20.20-2021 standards.

•Access to qualified third-party testing labs for advanced inspection needs.

Above all, Florida Circuit remains vigilant in preventing the procurement, acceptance, or shipment of substandard, fraudulent, or counterfeit products.

## Looking Ahead

With a philosophy rooted in continual improvement, Florida Circuit plans to continue expanding its services while maintaining its unwavering focus on quality assurance and reliability. As they celebrate 25 years in business, their goal remains clear: to deliver responsible procurement solutions that customers can trust.

# PJR Client Reminders

• **Rescheduling Audits & Scheduling Revisits:** It is essential that all audit rescheduling, the scheduling of revisits, and related matters are managed directly through your scheduler. This is particularly important when scheduling or amending audits within 21 days of the intended audit date. Auditors are not authorised to accept audit dates or agree new plans without your scheduler's involvement. This process helps to avoid unnecessary fees, billing complications, F-27 delays, and other issues.

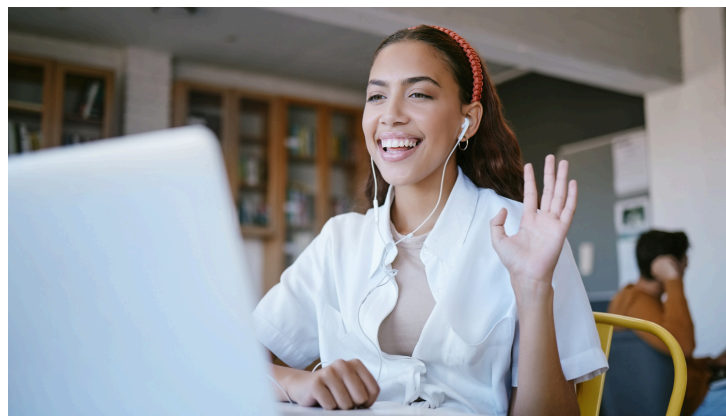

• **Company Contact Changes:** It is required that organisations notify their PJR representative of any changes to company contacts, whether for audit scheduling or accounting purposes. Keeping our records accurate enables us to maintain effective communication and streamline our processes, thereby minimising any potential disruption to our services. If there have been any recent changes to your company contacts, or if you anticipate any forthcoming changes, please inform your designated PJR representative at the earliest opportunity

• **Updated Terms & Conditions:** Be sure to download the latest version of PJR's Terms and Conditions. The most up-to-date copy is always available on our Document Download (link: <https://www.pjregistrars.uk/registration-document-download>) page. Stay informed and stay compliant!

# SAVE THE DATE FOR DECEMBER AUDITOR TRAINING

Join us for our Annual Auditor Training & Holiday Gala on Friday, 12 December 2025 – a full day of professional development, training credit units, and opportunities to connect with fellow auditors and industry leaders.

Reach out to [pjr@pjr.com](mailto:pjr@pjr.com) for more information!

## Upcoming Webinars

PJR continues to expand their webinar topics to include: “ISO 27001 Certification: Real Talk with PJR” & “Mastering Root Cause Analysis and Corrective Action”. Check out PJR's current webinar schedule at [www.pjr.com/webinar](http://www.pjr.com/webinar). Registration is easy!

## HAVE YOU CHECKED OUT OUR BLOG?

Stay informed with expert insights, certification guidance, industry news, and updates from the world of standards and compliance. The PJR Blog is your trusted resource for keeping ahead in a constantly evolving regulatory landscape—whether you are preparing for an audit, exploring the latest ISO revisions, or considering new certification opportunities.

# FROM FARM TO TABLE: THE STRENGTH OF ISO IN FOOD SAFETY

**I**SO certifications play a pivotal role in safeguarding what matters most, even our food. At PJR, we bring rigorous standards to every step of the food journey, ensuring safety and quality from the farm to your table.

When it comes to protecting consumers and strengthening trust in the supply chain, FSSC 22000 stands out as a globally recognized framework for food safety management. These certifications provide organizations with the tools they need to prevent contamination, reduce risks, and maintain compliance across every link of production and distribution.

## Who Benefits from FSSC 22000 Certification?

While FSSC 22000 is widely known for food manufacturing, its scope extends to a variety of organizations in the food ecosystem, including:

- Primary producers and farms
- Food and beverage manufacturers
- Packaging suppliers
- Transport and storage providers
- Catering and food service organizations

By implementing FSSC 22000, these organizations can demonstrate rigorous safety controls, improve operational efficiency, and gain global recognition for their commitment to protecting consumers.

## Why Choose FSSC 22000 Certification with PJR?

- **A Comprehensive Framework** – Connects farms, production, processing, distribution, and support services through robust safety protocols.
- **Expert Audits** – Our experienced auditors help organizations identify risks and implement preventive measures.
- **Global Recognition** – Certifications demonstrate compliance with international food safety expectations, building trust with customers and business partners worldwide.

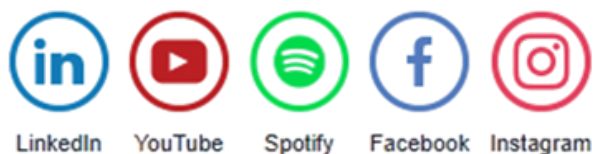

At PJR, our mission is to guide organizations of all types toward enhanced safety, reliability, and sustainability. Choosing FSSC 22000 certification is not just about regulatory compliance, it is a commitment to delivering safe, high-quality products and services at every level of the supply chain.

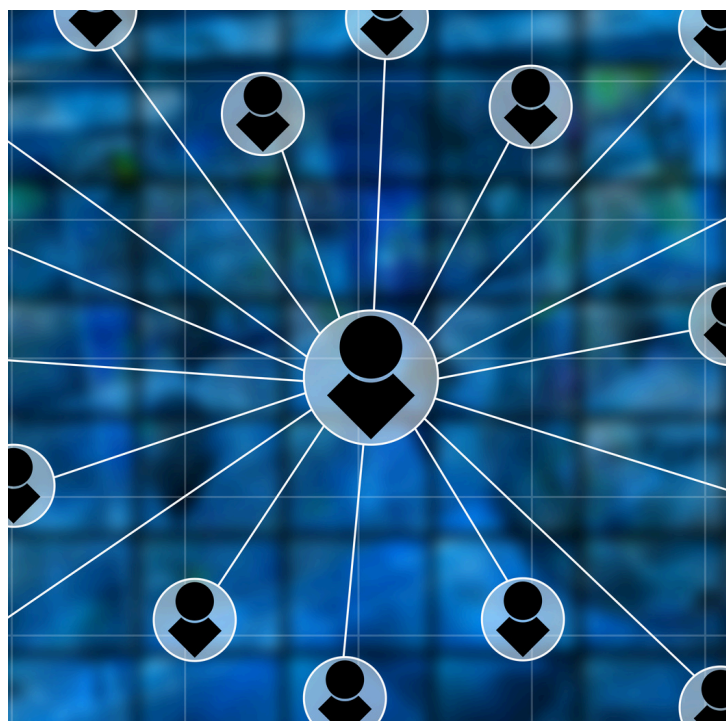

Protect what matters most. **Partner with PJR to achieve FSSC 22000 certification** and take the next step in advancing food safety and supply chain integrity.
